

# KELOWNA COURIER

AND OKANAGAN ORCHARDIST

VOLUME 5

KELOWNA, B.C., THURSDAY, AUGUST 6, 1908

NUMBER 1

## City Property For Sale on Very Easy Terms

One ten-acre lot in high state of cultivation with 750 trees that will bear fruit next year.

One new brick cottage with nine good rooms and good cellar, with one-half acre of ground; corner lot; about 300 feet street frontage.

One new brick house with nine good rooms and good cellar with lot to suit purchaser; can be made corner lot if desired; over 200 feet street frontage; all planted out to choice fruit.

A number of building lots in the choicest location where you can have a cellar under your house, with or without bearing trees; in sod or under cultivation; in lots of twenty-five feet up; facing North, South, East or West. These lots are the highest and best drained within the city. Call and see them before you buy elsewhere.

F. R. E. DeHART

WE ARE OFFERING for a few weeks only a number of lines at greatly reduced prices. Among these are:

### Quarter Oak Dressers and Wash Stands

Reduced from \$35.00 to \$28.00 cash

### Felt Mattresses

Reduced from \$13.50 to \$9.00 cash

Other Lines in Proportion

KELOWNA FURNITURE CO.

## What Constitutes a Good Irrigator

John G. Hall in the "Irrigation Age"

With us in Colorado, and I am told the same difficulty arises in other localities, when farming is carried on by irrigation, the question of getting a good and efficient man to spread the water is a serious one. A man possessing the knowledge, in the first place, of how to run out the ditches in a field of small grain for instance. Before he can do this he must be a practical irrigator. He must be able to know from looking at the land to be irrigated from what quarter or direction the water will come onto this elevation or that elevation, and be able to run the ditches in the field accordingly. His ditches must be run onto the high places, also have a fall of at least an inch and one-half to a hundred feet.

The old saying that water will run up hill in an irrigated country is untrue. Water can be delivered from one hill to another by means of a dyke, siphon, pipe or trough, providing the place of delivery is low, if higher it requires pressure to deliver it to a higher point.

Great care must be taken to get the ditches where all the ground can be covered with water, also not to plow up any more crops that is absolutely necessary, keeping, if possible, along roadsides, fences, etc.

## PUBLIC MEETING Votes for School Grounds

The public meeting called by the School Trustees, on Friday evening, to consider the need of additional lands for school purposes was attended by about forty people. Mr. H. W. Raymer was voted to the chair, and Mr. N. D. McTavish chosen as secretary.

Mr. Raymer explained the objects of the meeting and invited remarks from those present.

Mr. R. A. Cole favoured several different plans, including an additional school in Parkdale, raising the school and putting another storey under it, or buying two additional lots adjoining the present grounds and building another school on them.

Mr. J. W. Jones was in favour of centralising the schools and of ample grounds.

Mayor Sutherland said the matter of site had been left entirely with the School Trustees. Personally he was in favour of building beside the existing school. Without committing the Council or the Trustees in any way, he had secured an option from Mr. Harvey for two lots at \$400 each and another from Mr. Grummett for a lot measuring nearly an acre, at \$1400. The Trustees thought Mr. Harvey's lots would not provide enough room, and perhaps Mr. Grummett's lot would be the best buy under the circumstances.

Boyce approached for a piece of land on the new extension of Eli Ave. through his property. Dr. Gaddes thought the present site quite insufficient for the erection of additional buildings.

## Every Day is Bargain Day at Calder's

OUR MOVING SALE is in full swing WITH BIGGER AND BETTER BARGAINS THAN EVER.

CALL AND SEE WHAT SNAPS WE HAVE TO OFFER YOU.

Building Contractor.  
Estimates furnished on all kinds of work. Jobbing promptly attended to.  
KELOWNA, B. C.

which is being irrigated will consume it. With water turned on it is customary to run it night and day until the field is irrigated.

In my experience I find the greatest difficulty is in finding a man that has a disposition to do the required work. What is the required work? Get up at four o'clock in the morning, go out and change the water from the place it has been running all night. Irrigate the short runs in day time, leaving the long runs for the night; shovelling out the ditch; shovelling up the ditch banks; putting in wing ditches to reach a high spot, or doing whatever necessary to improve the condition. Stay with the water until nine or ten o'clock at night, up again at four in the morning. These are the duties required of a good irrigator. A man of this type is worth from ten to twenty dollars a month more than an ordinary man, who is afraid all the time he is doing too much for his employer.

The writer of this article has carried his blankets into the field and partially slept for a short time within forty rods of his own house so that the water could be changed every hour during the night in time of scarcity.

In conclusion I wish to say an irrigator possessing the knowledge of irrigation and the qualities mentioned above is a jewel and a blessing to his employer at almost any cost.

The COURIER's job printing department is replete with the latest and most attractive type faces which, when used by our artist craftsmen, produce results that are pleasing to the eye while the pocketbook gladly pays the price. Plain and fancy stationery.

have them all under one roof and one principal if possible. It might not be necessary to submit a by-law again to vote this year, as land could be purchased under agreement of sale.

Rev. H. P. Thorpe considered the present play ground entirely inadequate, and stated his children had occasionally come home suffering from injuries received from being crowded by larger children. He did not intend to send them to school again until these conditions were remedied. He strongly objected to the sanitary arrangements, which resulted in undesirable mixing of boys and girls, and he thought this could be remedied even under the existing limited conditions of space. He suggested looking elsewhere for land, and thought a good site could be obtained at very much lower cost than any already offered. He favoured additional schools in various parts of the city, and thought children should not be compelled to walk long distances to school.

Mr. N. D. McTavish spoke earnestly and to the point on the moral dangers attendant on badly arranged and crowded grounds and supported Mr. Thorpe's position in that regard, while he defended the action of the Trustees in seeking to buy Mr. Bowes' two acres. He had been a high school teacher himself for more years than he would like to say, and he had come to realize the vast importance of ample room for children to play as an essential part of their training. Provision should be made for large and small children to play apart, so that the little ones would not be liable to suffer injury.

Mr. DeHart was in favour of a large school ground, and thought the new school should be put as near the present building as possible, mentioning a site just across Glenn Ave.

Mr. Raymer suggested Dr.

Mr. Alex. McLennan said more room was needed, but he considered the price set on Mr. Bowes' land was too high, and he had voted against it and would do so again if necessary. He did not believe in scattering schools over the city, and ridiculed the idea that children suffered hardship in having to walk even from the remotest part of the city to school. It did them good and the distance was not too great.

Mr. R. Storey blamed the Trustees for the defeat of the by-law to raise funds for school lands, saying that they had not taken the people into their confidence as to their plans. He also thought plans of the proposed building should have been produced at the meeting. He favoured the purchase of the Grummett property.

Mr. T. Lawson made a spirited reply to Mr. Storey, saying the meeting was called for discussion of ways and means to secure a site, not in regard to the building itself.

Messrs. R. Storey and C. Regency moved that the Trustees be empowered to buy Mr. Grummett's land.

Rev. H. P. Thorpe moved that three acres be bought from Mr. Doisen for \$4,000 in accordance with his offer, as stated by Mr. Lawson.

Dr. Gaddes and Mr. M. J. Curtis moved that the Trustees be authorized to secure not less than two acres of land as near the present school as possible.

Mr. G. Rowcliffe moved that the Trustees enquire into all available sites and report to a public meeting to be held a week from date.

Mr. Thorpe's motion was not seconded, and Mr. Storey wished to withdraw his motion in favour of Mr. Rowcliffe's, but it turned out that the latter also lacked a second, and the issue resolved itself into a vote between the motions of Mr. Storey and Dr. Gaddes. A number did not vote, but Dr. Gaddes' proposal carried by 14 to 2.

The meeting then adjourned.

Contract advertisers will please notice that all changes of advertisements must be handed to the printer by Monday evening to ensure publication in the current issue.

THURSDAY, AUGUST 6, 1908

### IMPORTANT LAND DEAL

Belgian Syndicate Purchases Large Tract

A land deal of the first magnitude, and one which will have a most beneficial effect on the business interests of Kelowna, was consummated last week, by which a Belgian Syndicate, headed by Count Le Grelle, who paid a visit to the Valley last spring, has acquired the entire interests of the Ideal Fruitlands Co. in the bench lands east of Kelowna. The area purchased amounts to about 10,000 acres, and includes lands belonging to the following former owners: Kelowna Land & Orchard Co., 4,000 acres; J.

mittee, Hardman, Maguire, Chick, Stillingfleet, H. S. Rose, A. Crich-ton and B. Johnston. The choice of a captain was deferred until some matches shall have been played.

The annual membership fee was fixed at \$2.50, and it is hoped to secure at least 50 members at the outset. Frequent practices will be held and everything done to get a first class team together to meet Vernon, Revelstoke and other interior clubs.

### KELOWNA RIFLE ASSN.

Weekly Scores

There was a much better attendance than usual at the range on Thursday last, ten members turning up. It looks as though more interest is being taken in rifle shooting, and may the good work continue!

The day was ideal for good shooting, with a good steady, light and practically no wind, yet, strange to say, the scores made were away below the average with one solitary exception, a fine tally of 32 put on at the 500 by Mr. Leon Gillard. The poor shooting can only be accounted for by the supposition that it was an "off day" with most of the marksmen. Owing to the number shooting and a green marker, there was not sufficient time to shoot over the 600 range. Scores:

200 yards
A. O. Burnett 2-3, 5, 5, 3, 5, 2 4-27
T. Hildon 4-3, 2, 3, 4, 5, 5, 4-26
J. N. Cameron 0-5, 2, 3, 5, 2, 4, 3-24
Axel Eutin 5-3, 4, 4, 3, 2, 3, 3-22
Leon Gillard 2-2, 5, 2, 2, 4, 4, 2-21
T. Allan 2-3, 4, 2, 2, 3, 3-20
W. L. Black 0-2, 2, 2, 2, 3, 3, 4-18
T. J. Clarke 5-2, 3, 2, 3, 3, 2, 3-18
L. S. Currie 2-2, 2, 5, 3, 2, 2, 2-18
G. C. Rose 3-3, 2, 0, 4, 4, 2, 2-17

500 yards
Leon Gillard 2-5, 5, 4, 5, 5, 3, 5-32
Axel Eutin 4-2, 3, 5, 3, 4, 3, 5-25
A. O. Burnett 2-4, 2, 4, 2, 5, 2, 4-25

W. L. Black 2-2, 3, 2, 4, 4, 0, 2-17  
T. J. Clarke 2-2, 0, 2, 2, 4, 2, 2-14

**Aggregate**  
Leon Gillard 53, A. O. Burnett 52, T. Hildon 51, Axel Eutin 47, J. N. Cameron 45, T. Allan 40, G. C. Rose 37, L. S. Currie 35, W. L. Black 35, T. J. Clarke 32.

**Sweepstake, 500 yards, 5 shots**  
J. N. Cameron 4, 5, 5, 4, 3-21  
T. Hildon 4, 5, 5, 2, 4-20  
T. Allan 5, 4, 4, 3, 3-20  
A. O. Burnett 4, 2, 3, 4, 4-17  
W. L. Black 2, 4, 4, 5, 2-17  
Leon Gillard 4, 3, 4, 4, 2-17  
G. C. Rose 2, 4, 2, 4, 4-16

### BUSINESS LOCAL

Dr. Mathison, dentist, will return to Kelowna about Sept. 1st, to reside permanently. 52-1f

**Whistler's Portrait of Irving.**  
"Why did Whistler paint Henry Irving as Philip?" some one once asked me. How dangerous to ask "why" about any one so freakish as Jimmy Whistler! But I answered then and would answer now that it was because, as Philip, Henry, in his dress without much color (from the common point of view), his long gray legs and his Velasquez-like attitudes, looked like the kind of thing which Whistler loved to paint. Velasquez had painted a real Philip of the same race; Whistler would paint the actor who had created the Philip of the stage.

I have a note from Whistler written to Henry at a later date. I think, which refers to the picture. It is common knowledge that the sitter never cared much about the portrait. Henry had a strange affection for the wrong pictures of himself. He disliked the Bastien-Lepage, the Whistler and the Sargent, which never even saw the light. He adored the weak, pretty-pretty picture by Millais, which I must admit all the same, held the mirror up to one of the characteristics of Henry's fate—its extreme refinement.

The most remarkable men I have known were, without a doubt, Whistler and Oscar Wilde. This does not imply that I liked them better or admired them more than the others, but there was something about both of them more instantaneously individual, audacious and wonderful than it is possible to describe.—Ellen Terry in McClure's.

The Council have balked at spending money on watering the streets and have shifted the burden on the business men, who have nearly all entered into an agreement to pay 20 cents per day per firm to keep the water cart going. It is understood that the Council will assist in a measure if more funds are needed. We think it would be a fair proportion if the Council would pay half, as the comfort of walking the streets free from the annoyance of drifting dust is enjoyed as much by the residents in the suburbs who generally come into town daily as by the business men inside their offices and stores.

### CIVIC NOTICE

The Municipal Council of the City of Kelowna have determined that it is desirable to construct the sidewalks hereunder mentioned on the following streets, viz:

**PLANK SIDEWALKS**  
Four feet eight inches wide.  
(1) On the South side of Harvey Avenue, from Ethel to Richter Street.  
(2) On the South side of Eli Avenue, from Ellis to Abbott Street.  
Sixty per cent of the cost of said sidewalks to be assessed against the property on the South side, and twenty per cent against the property on the North side of the said Avenues, and shall be payable in five equal annual payments, and shall be carried out in accordance with the "Local Improvement By-Law."  
**CEMENT SIDEWALKS**  
Ten feet wide  
(3) On the South side of Bernard Avenue, from Pendozi to Water Street.  
(4) On the South side of Bernard Avenue, from Water to Abbott Street.  
(5) On the North side of Bernard Avenue, from Pendozi Street to the West side of Lot 5, Block 51.  
The total cost of the Cement Sidewalks shall be assessed against the property fronting thereon, and shall be paid in twenty equal annual payments.

And the Chairman of the Board of Works and the City Assessor having reported to the Council in accordance with the provisions of said By-Law, upon each and every of the said works, giving statements showing the amounts estimated to be chargeable in each case against the various portions of the real property to be benefited by the said sidewalks.

And the report of the Chairman of the Board of Works and the City Assessor having been adopted by the Council.

Notice is hereby given that the said reports are open for inspection at the office of the City Clerk, Bernard Avenue.

City Clerk's Office G. H. Dunn, July 27th, 1908. C.M.C.

### Tenders Wanted

For the erection of a one-storey concrete building, with brick and plate-glass front, on the corner of Water St. and Lawrence Ave., dimensions about 65 x 30 x 16 ft. Rough sketch, from which tenderers must prepare complete plans and specifications to be submitted with tender, may be seen at the Courier Office. The lowest or any tender not necessarily accepted. Tenders should be addressed to "The Kelowna Courier" and will be received up to August 8th.

## THE IRRIGATION CONVENTION

Next Week

As the work of preparation for the second annual convention of the Western Canada Irrigation Association progresses, indications multiply that the event will be one of the most successful ever held in Western Canada.

The syllabus of papers and addresses includes, "The Laws Relating to the Use of Water for Irrigation," by J. S. Dennis, assistant to Second Vice-President, of the C.P.R.; "The Grey Canal Irrigation System," by A. E. Ashcroft, C. E., of Coldstream; "Irrigation in its Relation to Forestry," by Senator W. C. Edwards. The legal aspect of the subject will be dealt with by Charles Wilson K. C., of Vancouver, and by J. A. Macdonald, of Rossland. Prof. L. G. Carpenter, Director and Professor of Irrigation, Colorado Agricultural College, the expert who recently prepared an exhaustive report on irrigation conditions in British Columbia for the Provincial Government, will be present and will deliver an address dealing probably with some local phase of the subject.

The attendance at the Convention, which will be held in Vernon during the week beginning August 10th, will be very large, a large number of delegates having already notified the Secretary of their intention of being present.

Some of the more prominent of those who will attend are:

Lieut.-Governors Bulgea of Alberta and Forget of Saskatchewan; Hon. F. J. Fulton, Chief Commissioner of Lands and Works. It is also expected that Hon. Richard McBride, Premier of British Columbia; Hon. F. Oliver, Minister of the Interior;

## CITY COUNCIL

The first meeting of Council for over two weeks was held on Friday, with the Mayor and Alds. Curtis, DeHart, Gaddes and Backland in attendance.

The following accounts were referred to the Finance Committee and ordered to be paid if found correct:

P. Brooks, special constable	\$ 27 00
Petty cash	17 05
T. J. Clarke, driving piles for bridge	16 00
R. J. Paul, watering cart	86 80
B. McLellan, watering streets	34 20
T. McKay, deputy returning officer's fee	3 00
K. L. & O. Co., rent for nuisance ground	50 00
W. T. Ashbridge, plans for local improvements	25 00
Kelowna Courier, printing and advertising	169 90
Campbell Bros., repairs to window, &c.	9 20

Mr. Marty's plan of subdivisions of Block 12 was accepted, as also was the auditor's report for the half-year ending June 30th, 1908.

On the motion of Alds. DeHart and Curtis, it was decided to oppose the application of Mr. L. C. Aviss for a lease of the foreshore as advertised by him, on the grounds that the area applied for overlaps Water St., and that it will be required for the city power plant.

By-Law No. 44 relating to destruction of obnoxious weeds was read a second and third time and passed, and By-Law No. 43, in regard to issue of debentures for school buildings, was reconsidered and finally passed.

The reports as to local improvements on the following streets were adopted: Harvey Ave., south side; Eli Ave., south side; Bernard Ave., south side; Bernard Ave., north side.

Council adjourned to Tuesday, Aug. 4th.

## Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Entry must be made personally at the local land office for the district in which the land is situated. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land each year for three years.

(2) If the father or mother, if the father is deceased, of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL: Coal mining rights may be leased for a period of twenty-one years at the annual rental of \$1.00 per acre. Not more than 2500 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,  
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

We do not do cheap (and nasty) printing, but we base our prices on a moderate profit on the cost of production, the only HONEST way to do business.

We hope all official bodies, associations and land companies in the Kelowna district entitled to representation will send a full number of delegates.

## CONROY VS. HERERON

Mission Road

Kelowna, B.C., July 31st, 1908.

To the Editor,  
Kelowna Courier.

Dear Sir,

My attention has been called to a paragraph in the Okanagan Mission Notes appearing in the "Vernon News" of July 16th, which stated that a dispute over an irrigation ditch between Mr. J. Conroy and me had been settled by arbitration in Mr. Conroy's favour. If the correspondent responsible for this statement would read the decision carefully, he would see that he had greatly erred, as Mr. Conroy was awarded one ditch instead of four, which he claimed.

Yours truly,  
T. HERERON.

Can. Pac. Ry. S.S. "ASSINIBOIA"

On July 7th the Canadian Pacific Railway Co. placed in commission their magnificent steamer "Assiniboia" on the run between Fort William and Owen Sound. She is 348 feet long, 43 feet 6 inches beam, with depth of 26 feet 9 inches, and has a speed of fourteen knots. The steamer is luxuriously fitted and equipped with all the latest devices for comfort and safety. The awning deck, in addition to many large and airy staterooms, has five cabins de luxe with bath. The dining room is on the promenade deck, where there are also a large number of exceptionally light and airy rooms, besides a large observation drawing room in the bow, and observation smoking room in the stern. The "Assiniboia" will carry 250 passengers.

The following accounts were referred to the Finance Committee and ordered to be paid, if found correct.

A. T. Agnon, salary	\$100 00
A. Mawhinney work on sidewalks	30 00
W. Wilson, do	19 50
J. Marty, do	15 00
J. Tebout, do	12 50
D. Mills, scavenger work	84 00
Office Specialty Co.	3 45
Crawford & Co., stationery	9 35
L. Hayman, freight on team	3 00
G. Dillon, watering streets	25 00
Ashcroft & Marks, blacksmithing	12 55
Chas. Harvey, surveying cemetery	102 60
Morrison-Thompson Hardware Co., hardware	7 60
R. H. Parkinson, surveying	76 00

Letters were read from Messrs. G. A. Stimson & Co. and W. C. Brent, asking for further information about the school building and water and light debentures. The Council decided to offer the latter at 90 net and the former at 100, both offers at these prices to hold good until September 15th. Considerable discussion took place as to the rubbish nuisance. Owing to the risk of fire through its accumulation in the business district, it was decided to enforce the by-law relating to the matter, and Chief Hidson was instructed to warn all transgressors, and, should the notice be disregarded, to prosecute them.

## BUSINESS LOCAL

Winter, the photographer, will close his photo studio September 1st. If you want up-to-date work come early and avoid the rush of the last few days. The forenoon is the best time for children.

## NOTICE OF APPLICATION FOR LIQUOR LICENCE

Take notice that I, John W. Milligan, intend to apply to the Licence Commissioners for the City of Kelowna for a licence to sell liquor on the premises to be known as the Royal Hotel, situated on part of Lots 4 and 5 in Block 12, Plan 42, in the City of Kelowna.

Dated at Kelowna this 5th day of August, A. D. 1908.

John W. Milligan.

## Ten Years Ahead Of All Other CREAM SEPARATORS

In skimming efficiency, simplicity, durability and convenience, the new years ahead of any other machine on the market today. Thirty years of experience, protecting patents, and the many valuable improvements devised and perfected by the DE LAVAL engineers in all parts of the world during the past three years, are responsible for this fact. Every feature of the DE LAVAL has been improved from the supply can to the base. The new centre-balanced bowl with its separate spindle is alone a triumph in separator construction and must be seen to be fully appreciated. Then, there is the new one-piece "anti-splash" sanitary supply can, adjustable shelves for skim milk and cream receptacles, new frame designs, and many other but less important improvements,—all combining to make the DE LAVAL an absolutely ideal separator for farm and dairy use. There is the proper size machine for every size dairy from the smallest to the largest and no cow owner can afford to be without one of these improved machines. It will cost you nothing to see and examine the new DE LAVAL, and right at your own home too, if you will but say the word. Our new illustrated catalogue describing the DE LAVAL improvements in detail is sent for the asking. Write us at once and you will receive this interesting booklet by first mail with full information as to how you may have a free demonstration of the improved DE LAVAL at your home. It will pay you to do so and your only regret will be that you didn't investigate sooner.

## FERTILIZERS FOR ORCHARDS

Some American Experiments

Beginners in horticulture are apt to overlook the fact that fruit trees require fertilizers just as ordinary farm crops. On most of the fertile lands of the Okanagan the soil is rich enough for the first few years after planting to produce growth of the frame of the tree at a sufficiently rapid rate, and it might only cause an unwieldy excess of limbs to fertilize at that stage. But when the tree begins to bear fruit a serious drain on the resources of the soil commences, and the constituents taken by the roots must be replaced if the product of the orchard is to be maintained in equilibrium. This does not mean the indiscriminate application of barnyard manure in large quantities, as in certain cases barnyard manure is not the best enriching agent to use, and, to be sure of his ground, the novice should have the soil of his orchard thoroughly analysed, so as to learn what constituents of a well-balanced soil for horticulture it lacks, which he can then add by the use of chemical fertilizers.

An authority on this question is Prof. W. P. Brooks, of Massachusetts Agricultural College, who read a paper on the subject some time ago to an audience of horticulturists.

He began by stating a few general principles. In dealing with fruit trees very slow-acting fertilizers are to be chosen, as a rule. This is because the crop remains long in the land, and because, as a rule, slow-acting fertilizers can be bought at a price which makes the unit of plant food in them much cheaper. There are, of course, some exceptions to this rule, especially

in the fall of 1887 ploughed and dressed with one ton of wood ashes to the acre. In 1888 it was again ploughed, and in 1889 the regular system of fertilizers was adopted as follows:

Plat 1 received annually at the rate of ten tons of barnyard manure per acre.

Plat 2 received at the rate of one ton of wood ashes per acre.

Plat 3 received nothing in the way of fertilizer, but was held as a check against which the other lots could be compared.

Plat 4 received annually bone meal 600 lbs., muriate of potash 200 lbs.

Plat 5 received annually 600 lbs of bone meal and 400 lbs. of low-grade magnesia potash salt-peter.

The trees were planted in 1890, and the land was ploughed and cultivated until 1893 when it was seeded down to grass. The hay was cut and carried away until 1902, after which the hay was cut and left on the ground. The trees have therefore been growing since 1890, and are now 18 years old. They have been bearing for several years, and while the results are not necessarily final, a very good judgment can be formed regarding the general results.

It may be said that the fertilizers in the different plats cost approximately as follows:

Plat 1—\$20 per acre per year.  
Plat 2—\$12 an acre.  
Plat 3—Nothing.  
Plat 4—\$10 an acre.  
Plat 5—\$17 an acre.

The amount of potash in plats 2, 4 and 5 was approximately equal, as was the phosphoric acid in plats 4 and 5.

Considerable difference is shown in the growth of the trees during the fifteen years of this experiment. It would be natur-

ally, however, to expect that the quantities of fertilizers, chemically computed, are almost identical. The difference appears to be due to the different form in which potash is applied. The evidence is certainly strong that on this soil sulphate of magnesia potash is superior to the muriate. The plat fertilized with wood ashes gave the lowest yield of the fertilized plats, although at relatively high expense. The very low yield from the unfertilized plat is rather striking, especially when one remem-

done by an experienced hand at a moderate rate. A good opportunity for ladies' leaving town and bachelors. For particulars apply Courier Office

plant food can be bought more cheaply in slower-acting chemicals. At the present time nitrate of soda offers practically the cheapest form of nitrogen, pound for pound; yet it is one of the most quickly available fertilizers known.

In applying potash and phosphoric acid to fruit trees, at least in soils which are fairly retentive, considerable quantities can be held in reserve—that is, the soil will carry a large stock of these fertilizers on which the tree can grow indefinitely as they need them. For various reasons, however, nitrogen cannot be stored up in the soil in the same way. It has to be supplied frequently, and therefore usually in smaller quantities.

It is to be noted further that in the use of nitrogen on fruit trees considerable care has to be exercised. Large quantities of nitrogen are not needed, and even moderate quantities are sometimes dangerous. In an apple orchard all the nitrogen may sometimes be secured from the use of leguminous cover crops, such as cowpeas, soy beans, clover or vetch. As nitrogen is the most expensive element to be secured, there is manifest economy in applying such a system of management as will provide this nitrogen on the ground without the addition of expensive nitrogenous fertilizers.

The principal part of Prof. Brooks' lecture, however, was devoted to a discussion of a very interesting experiment in the fertilization of apple trees carried on at the Hatch experiment station of the Massachusetts Agricultural college. A good piece of land, having been previously cultivated in grass and other common crops,

cumference of the trees in the different plats, the following figures were shown:

Plat 1—31.32 inches.  
Plat 2—27.52 inches.  
Plat 3—24.52 inches.  
Plat 4—26.94 inches.  
Plat 5—31.15 inches.

It should be said that this experiment included several different varieties of apples as follows: Baldwin, Gravenstein, Rhode Island Greening and Roxbury Russet. These varieties were affected very differently by the fertilizers. It was shown, for instance, that Roxbury Russet could rustle for itself much better than the other varieties. It made very nearly as good growth in plat 3, without fertilizer, as in plat 1, where it had an abundance. Baldwin, on the other hand, proved to be very sensitive to food supply. It made much less growth in plat 3 than in the fertilized sections. This, of course, is quite contrary to usual opinion, which rates Baldwin as the lazy man's apple par excellence.

We may compare the products of these various plats. The totals are as follows, and cover the time of the first bearing, in 1898 up to and including the crop of 1905:

Plat 1—10,287 pounds.  
Plat 2—5,463 pounds.  
Plat 3—2,021 pounds.  
Plat 4—7,111 pounds.  
Plat 5—9,607 pounds.

It will be seen that the section fertilized with barnyard manure has given slightly the largest total crop. It must not be forgotten, however, that this is secured at a very greatly increased expense. The next largest crops were developed in plats 4 and 5, but the striking thing is that plat

carefully pruned, sprayed or otherwise well cared for.

In the matter of quality, there were also some striking differences among the various plats. The fruit showed its best color nearly always on plat 2, fertilized with wood ashes, while plat 5 showed second best color. Those on the unfertilized plat were firm, of good color and good flavor, but were altogether too small and a very large proportion of them were unfit for sale. The fruit on plat 1, fertilized with barnyard manure, was poorest of all except in the point of size. It was soft, rather poor flavored, kept poorly, and was not well colored. Careful chemical tests failed to reveal any difference in the chemical nature in the different plats.

### LOCAL NEWS

Mr. Banfield left for the Coast on Saturday.

Mr. H. R. Bower was a visitor to Vernon on Friday.

Mrs. McJanet left on Saturday for a visit to Regina.

Mr. W. J. Mantle returned from the Coast on Saturday.

Dr. Gaddes left on Tuesday for a business trip to Vancouver.

Dr. Keller paid a professional visit to Okanagan Centre on Friday.

Mr. W. Haug made a business trip yesterday to southern lake towns.

Miss M. Tait returned on Saturday from a month's visit to friends in the prairie provinces.

Mr. C. B. Daniel, manager of the Royal Bank, left on Tuesday for two weeks' vacation at the Coast.

Mrs. W. A. McLean and family left yesterday for Enigwell, Alberta, where Mr. McLean is engaging in farming.

Mrs. R. D. Sinclair, of Summerland, came up on Saturday for a week-end visit to friends, returning Monday.

Mr. J. M. Boyd, western representative of the Manitoba Free Press, was in town on Monday and paid a friendly call at the Courier office.

The Rev. W. G. Taylor, of Cranbrook, will preach at noon services in the Baptist Church next Sunday. A cordial invitation is extended to all.—Con.

Miss Buchanan came in on Saturday's boat, and is spending a couple of weeks with friends before proceeding to the Coast, where she will probably reside in future.

The Women's Foreign Missionary Society intend holding an ice cream social on Tuesday evening, at Capt. Knight's summer cottage in Parkdale. Proceeds will go to the Society. Music.—Con.

Jack Coryell, brother of Frank, returned from South Africa during the week, where he has been residing for several years. He expects to remain for good.—Grand Forks Gazette, Aug. 1.

A party of tennis players, including Messrs. L. Harvey, R. Upton, G. K. Smith, G. W. Mappin and H. E. Leiga, went up to Vernon yesterday to play a match with the tennis champions of that town.

Mr. G. O. Fallis left on Saturday on his way to the Coast, where he will enter Columbia College, New Westminster, to complete his theological studies. On the way he will visit friends at Vernon and Armstrong.

The baseball match last Thursday

between the Kelowna and Vernon teams

was a very close one, the Kelowna team winning by

7 to 6. Scores: Loug and Coles (Benches) beat Barney and Mallam, 2

sets to 1; Leiga and Stubbs, 2 sets to 0; Fordham and Bennett, 2

sets to 0; Mappin and Smith (Benches) lost to Barney and Mallam, 0

sets to 2; Leiga and Stubbs, 0 sets to 2; and to Fordham and Bennett, 1 set to 2; Pyman and

Wright (Benches) lost to Barney and Mallam, 0 set to 2; to Leiga and Stubbs, 0 set to 2, and to Fordham and Bennett, 0 set to 2.

Mr. J. B. Knowles is showing in his window a most fascinating array of trophies and prizes for the Regatta. The liberal manner in which the people of Kelowna have responded to the appeal of the Regatta Committee has enabled them to offer not only a larger number but also considerably more valuable prizes than last year, and they are tempting enough to ensure keen competition. The Committee have shown excellent judgment in arranging the programme, and the two days' sport provided should eclipse anything heretofore attempted in the Okanagan valley. It is a beautiful time of the year for a "day off," and every busy worker should grant himself, his wife, his little ones and all connected with him a holiday and let them all enjoy themselves to the top of their bent. Remember the dates, Wednesday and Thursday next, Aug. 12th and 13th!

There was such a sparse attendance at the "mass meeting" called for last night to consider what relief should be sent to the sufferers by the disastrous fire at Fernie, that it was not formally convened, and the fourteen persons present discussed the matter in an informal manner, eventually deciding to circulate a subscription list today and tomorrow and also place copies in the stores so that contributions can be obtained from residents in the country. Mr. DeHart stated he had secured subscriptions of potatoes to the number of 150 sacks, and he hoped to obtain enough, either by gift or purchase, to make up a full car-load, which will be sent forward tomorrow, the C. P. R. having generously offered to transport it free of charge. It was agreed that, if enough potatoes cannot be secured by gift to make up the balance of the car, they shall be bought out of the money collected, the balance of the cash to be sent through May or Sutherland to the Mayor of Fernie.

With the current issue the Courier enters upon its fifth year of existence, and the proprietor wishes to express his appreciation of the generous advertising patronage that has made it possible to enlarge the paper from time to time and keep step, in a measure, with the growth of the city.

Mr. John Dilworth has the champion early potato this season, so far as we know. He informs us that a single potato was dug in his garden which sufficed, when served at table, for five persons, and there was sufficient left for another individual. It was of perfect form, free from knobs, and weighed 3 lbs.

Miss Jones left on Saturday for Regina, where she will take a principal part in an interesting event, and it will be proper in future to address her as Mrs. R. Richards, Kaiser, Sask. On the eve of her departure the members of the choir of the Presbyterian Church presented her with a handsome carving set in token of appreciation of her musical services. Miss Jones will be much missed at concerts in town, and her numerous friends wish her much happiness.

Kelowna having at long last organized a Cricket Club, the first match under the auspices of the club will be played with the South Okanagan Sports Club at Okanagan Mission, on Saturday. The "Lorna Doone" will leave Kelowna at 10.45 a.m. with the team, which will probably be composed of Messrs. A. Crichton, Hardman, Maguire, Stillingfleet, Brooks, Garbutt, Barker, Johnston, Chick, Coles and Pyman, with Jarvis, substitute. A good match may be anticipated.

Mr. D. Gellatly, of Gellatly, was a visitor in town on Tuesday. He drew our attention to a spraying formula for peach mildew, given by Prof. W. S. Thornber, who recently lectured here. Mr. Gellatly has found it very effective in combating the disease. It is made as follows: Take 5 oz. copperas and 3 pints water; mix and add 3 pints of strong ammonia. Dilute with from 45 to 60 gallons of water. This mixture will not stain the fruit or damage it in any way.

We are indebted to Mr. John Morrison for a beautiful basket of Early Alexander peaches, grown in his garden in Dry Valley without irrigation. The land on which they were grown lies on a gentle slope

in a sheltered nook in the hillside, and it is probably sub-irrigated to a certain extent by seepage. The peaches, although not of very large dimensions, are of good average size and of excellent quality, being just as juicy as though grown in an irrigated orchard.

The "Aberdeen" yesterday had practically the full number of passengers allowed her by the Department of Marine, about 230 arriving on the excursion from Armstrong. The heat of the day was mitigated at frequent intervals by cool breezes from the lake, and it did not deter the visitors from enjoying themselves on land and water. The Armstrong lacrosse team defeated the Kelowna boys after a rough game, in which several severe cuts were sustained by some of the Kelowna players. The score stood 5 to 4. The "Aberdeen" began the return voyage at 5 p.m.

The C. P. R. wharf here has been for two or three years back a reproach to that rich and powerful company, but its present condition is positively scandalous. The cheap and paltry patching done a few months ago has been utterly ineffectual in stopping its gradual process of disintegration, and loose planks and holes are evident everywhere. Surely there is some department of the provincial or federal governments that has the power to require the company to properly repair or replace the wharf, and if so, application should be made to it forthwith.

The results have been received of the high school exit examinations, entitling those successful to a junior third grade teacher's certificate. The Kelowna candidates, under the tuition of Miss E. McNaughton M. A., made a creditable showing, five passing out of seven. The possible total was 1,500 marks, and the pass standard 750 marks. The following are the names of the successful candidates, with the marks obtained: Myrtle Hunter, 911; Anne Hunter, 847; Winifred Raymer, 802; Ruby Hunter, 855; Mary Bigger, 840.

The "Semi-Weekly Okanagan," of Vernon, has inaugurated a popularity contest on the lines of that successfully conducted by the "B. C. Saturday Sunset," of Vancouver. The competition will close on Sept. 30th, and the winners will be entitled to a free trip to the New Westminster exhibition, including railway fare and all traveling expenses en route and during the week of the fair. One trip will be allotted to each of eight districts, of which Kelowna, combined with Okanagan Centre, forms one. Full particulars may be obtained from the Kelowna branch of the contest.

It was a very close one, the Kelowna team winning by

7 to 6. Scores: Loug and Coles (Benches) beat Barney and Mallam, 2

sets to 1; Leiga and Stubbs, 2 sets to 0; Fordham and Bennett, 2

sets to 0; Mappin and Smith (Benches) lost to Barney and Mallam, 0

sets to 2; Leiga and Stubbs, 0 sets to 2; and to Fordham and Bennett, 1 set to 2; Pyman and

Wright (Benches) lost to Barney and Mallam, 0 set to 2; to Leiga and Stubbs, 0 set to 2, and to Fordham and Bennett, 0 set to 2.

Mr. J. B. Knowles is showing in his window a most fascinating array of trophies and prizes for the Regatta. The liberal manner in which the people of Kelowna have responded to the appeal of the Regatta Committee has enabled them to offer not only a larger number but also considerably more valuable prizes than last year, and they are tempting enough to ensure keen competition. The Committee have shown excellent judgment in arranging the programme, and the two days' sport provided should eclipse anything heretofore attempted in the Okanagan valley. It is a beautiful time of the year for a "day off," and every busy worker should grant himself, his wife, his little ones and all connected with him a holiday and let them all enjoy themselves to the top of their bent. Remember the dates, Wednesday and Thursday next, Aug. 12th and 13th!

There was such a sparse attendance at the "mass meeting" called for last night to consider what relief should be sent to the sufferers by the disastrous fire at Fernie, that it was not formally convened, and the fourteen persons present discussed the matter in an informal manner, eventually deciding to circulate a subscription list today and tomorrow and also place copies in the stores so that contributions can be obtained from residents in the country. Mr. DeHart stated he had secured subscriptions of potatoes to the number of 150 sacks, and he hoped to obtain enough, either by gift or purchase, to make up a full car-load, which will be sent forward tomorrow, the C. P. R. having generously offered to transport it free of charge. It was agreed that, if enough potatoes cannot be secured by gift to make up the balance of the car, they shall be bought out of the money collected, the balance of the cash to be sent through May or Sutherland to the Mayor of Fernie.

## Do You Want a Buggy?

You might just as well have the best you can get.

McLaughlin buggies are famed for their elegance of style and wonderful durability.

For forty years the McLaughlin Carriage Co. have produced rigs which have established their motto of "One Grade Only, and that The Best."

### Why McLaughlin Rigs Are Noiseless

They have Rubber and Brass Washers. Steel against steel makes a noisy, unserviceable bearing; steel against leather makes a hard running and short lived bearing; steel against brass makes the smoothest running and longest lived bearing known to modern mechanics. That's what the McLaughlin have.
